

# Me and The World

By Maila Rahiem

**This is Me...**

# This is My Family...

some families have a mother and father or step-parents but not all families have two parents.

Not all families have parents who live with them. Some children have one parent or are orphans.

Some children live with foster carers or in a children's home and these are their families.

**I need My Family...**

**How if I don't have them?**

**These Are My Friends....**

**We are all the same....**

**These Are My Friends....**

**We have differences....**

just like animals...

We are different, special and unique so that Our parents can easily identify us.

**I need My Friends...**

**How if I don't have them?**

This is my house...

**Not all houses are the same...**

**...some kids don't have house**

**This is my house...**

**This is the house of  
many other kids too...**

**This is our house...**

**Where my families and  
friends live...**

**And where other kids  
live with the families  
and friends**

**OUR WORLD**
